

# GOVERNOR'S COVID-19 UTILITY RELIEF

## CUC NOW OFFERING PAYMENT DEFERMENT FOR RESIDENTIAL CUSTOMERS

Governor Ralph DLG. Torres and the Commonwealth Utilities Corporation (CUC) have announced that CUC will be offering a **payment deferment or due date extension** for residential customers in response to the COVID-19 outbreak and its effect on CNMI residents.

CUC allows up to a **one-month utility bill payment to be delayed over a three-month period**. Again, the assistance applies to only one-month of utility charges.

To allow customers to stay safe and at home, CUC is advising residential customers that they do not need to come to CUC to avail of this payment deferment or extension offer.

If a customer does not wish to avail of this assistance, they simply have to pay their bill on time.

Customers may call the CUC Call Center at **(670) 664-4282** to speak with a representative for assistance. For everyone's health and safety, CUC encourages its customers to pay their accounts online through CUC's website at **[www.cucgov.org](http://www.cucgov.org)** or by phone by calling **1-855-729-2282 (PAY2CUC)**, both free of charge.
